Cold or Flu?

Is it a cold or the flu? It is important to know the difference. A cold is a milder respiratory illness than the flu. Cold symptoms like fever, congestion, and body aches can make you feel ill for a few days. Flu symptoms can last much longer and can turn into more serious health problems such as pneumonia.

Children can come to school when they have a cold but should stay home if they are unable to keep up with regular daily activities and/or have a fever. Your child can return to school only after she/he has been **fever free for 24 hours without medication.**
